

# It's Time to Clear the Air

## CODE COMPLIANT WHISPER SOURCE CAPTURE SYSTEM FOR NAIL SALONS

Removes Harmful Vapors and Dust  
Quiet and Portable  
IMC Ventilation Code Compliant

aerovex  
systems

Powerful source capture ventilation removes dusts, vapors, and other airborne contaminants created by nail services

More quiet and smaller than other source capture systems on the market

Either recirculate purified air back into the space or vent the outside to meet local code

# System Specifications

## System Info

- Airflow: 176 CFM Dual Hose / 88 CFM Single Hose
- Voltage/Power: AC 110 V / 300W
- Filtering Efficiency: 0.3 um 99.97%
- Base Dimensions: 16.75" L x 10" W x 17" H
- Weight: 32 lbs.
- Hose Length: 44"
- Noise Level: 60 dB
- Exhaust Vent Dia.: 4"

## Filter System Includes

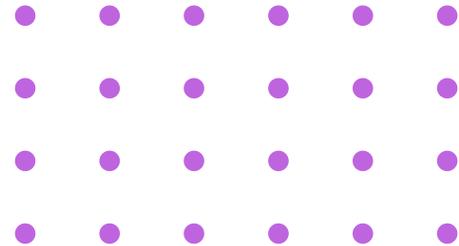

- Deep Pocket Dust Pre Filter
- HEPA Filter
- Activated Carbon Filter
